Citrus Disease Waiver

Due to bacterial citrus diseases now found in Florida, a pre-fair inspection must be completed by the Florida Department of Agriculture and Consumer Services. This inspection will be specifically for citrus greening and citrus canker symptoms. Individual trees exhibiting symptoms of either disease will be refused entry into the Youth Fair resulting in disqualification. The decision of fair officials is final in respect to disqualification due to citrus greening and citrus canker.

I have read this waiver and understand it.
